## Proposed Itineraries

### Bus Tours

#### 1. Best of Milos Tours (FD)

##### (Full day) Sightseeing and Swimming

This is a tour designed to include the best of Milos in one full day, an ideal option for 'island hopping' packages and people who don't want to rent a car. Includes:

- Papafragkas cave (quick historical overview about the village of Phylacopi, but without entering the archaeological site)
- Sarakiniko beach (30 minutes visit)
- Plaka (walk in the traditional alleys)
- Catacombs, site where *Venus de Milo* was found, ruins of ancient town of Klima, ancient theater (1-1,5hr stop, including visit to the Catacombs)
- Fish village of Klima
- Swim in Palaiochori or Provatas (2,5 hours stop for swimming & water sports)
- Beach is organized with beach bars, for any snacks/refreshments.

**Duration:** 10:00 - 18:00

You can download pictures of this tour by clicking [here](#).

#### 2. Geological Tour

The greatest and most intriguing characteristic of Milos for the conscious visitor is its volcanic nature and geological wealth, which this carefully designed tour allows to explore.

Based on the [Miloterranean Geo Walks](#), an extensive geological path network of the Milos Mining Museum that reveals the terrain of Milos and the geological history behind it in 6 routes, this tour includes parts of Route N°2 (Volcano) and N°4 (Aggeria).

Our stops include:

##### -Papafragkas cave

A small sandy beach lays hidden in this breathtaking cave. Pumice is created when super-heated, highly pressurized rock is violently ejected from a volcano, and we can see evidence of this in the impressive white rocks of Papafrangas. Irregularly shaped spherical pieces of pumice have been scoured out and bound together in a compact layer with a white powder of the same composition. This is the result of layers of ash, rich in pumice, having been deposited in a marine environment.

##### -Mining museum, Obsidian collection

Short guided tour at the Milos Mining Museum.

Exhibits and photographs of the exhibition showcase the impressive geological particularity of Milos and narrate in their own way the mining history of the island; the Milos obsidian collection is an absolute must-see.

**-Salt fields**

Next stop are the Salt fields. With the help and knowledge of our experienced escort, we will go through the history of the Salt fields and learn about the port of Kanava and its importance from the Middle Ages, leading up to the early 20th century.

**-Crater of Fyriplaka, with the century-old cedar trees**

We will pass through the steep entrance of the crater and continue down a slippery road that leadsto a clearing right in the center of the crater, wherethe old cedar trees abide.

**-Kalamos (volcano ending)** we will admire the fumaroles and visit the observation standpoint of Ag. Kyriaki beach

**-Aggeria mine (largest active bentonite mine in Europe)**

**-Modern Mineral processing factory**

**Duration: 10:00-15:30**

You can download pictures of this tour by clicking [here](#).

### 3. Combined Land & Sea Excursion

This is a unique tour since it can combine bus and boat tour in a day!

The group starts with the land tour which will include:

-Sarakiniko beach (30 minutes visit) - white volcanic rocks  
-Plaka (walk in the traditional alleys)

Then we transfer to a small port at the south of the island embarking on a boat trip with a traditional wooden boat to the most famous landmark of Milos, Kleftiko.

Tour duration: 10:00-18:00 (5hrs land tour, 3 hrs boat trip)

### 4. Milos Off-Road Experience

Milos is an island of great differences, with an entire region that is far enough from any village or trace of civilization to be named as virgin or wild territory.

This intriguing western side of the island we will be exploring with our 4x4 Milos Off Road Experience tour, getting you to areas that regular vehicle would not be able to reach, without the stress of directions or road conditions, as you allow our experienced escort to lead you to explore the hidden Milos.

This is a FD private tour, operated by a 4x4 luxurious vehicle, with the following recommended itinerary:

- Sarakiniko**, our first stop to the renowned lunar beach of Milos, not limited to the touristy, panoramic view, but exploring the mesmerizing environment
- Papafragkas cave**, a visit to one of the most impressive open volcanic caves of the laced norther coastline of Milos
- Western Milos and Agia Marina**, driving through the western side of Milos, into unwelcoming dirt roads and stops to take in the breathtaking panoramic port view
- Cape Vani**, the impressive cape on the north-west extreme of the island, with the legendary old manganese mines, a once in a lifetime experience
- Agathia beach**, for swimming and for a small picnic in one of the most beautiful secluded beached of the western side
- Empourios**, this is an optional stop, in a small seafront settlement with a traditional taverna, where guests would enjoy local specialties, if they wish

**Duration:** 10:00 - 18:00 (approximately)

## 5. Food Tour

Besides its history and natural beauty, the heart and soul of the island is its flourishing gastronomy; from traditional local recipes that dates decades ago to the modern impressive wide range of restaurants that offer top notch flavors and quality of services, without diverging from the spirit of the local production.

For the visitor that is thrilled to explore the local flavours and the gastronomy aficionados, this private tour of the local products and recipes is perfect example of local cuisine.

-**Pollonia**, our first stop in the gastronomic capital of Milos, right after the wine tasting session, for a first bite of local savory delicacies, like tomato fritters or *pitarakia*

-**Koufeto stop**, still in Pollonia, a visit to one of the most renowned family owned pastry shops, to taste the *Koufeto*, the traditional local desert

-**Plaka**, for the *Karpouzopita* stop, to visit the capital of Milos and explore the unique tast of the local watermelon pie

-**Plaka**, for a short savory stop in one of the best restaurants of the village, to explore another traditional recipe

-**Adamas**, a visit to a family owned and run restaurant, with its own cheese production unit, to indulge in the local cheese of Milos

-**Paliochori**, the volcanic food stop, in the south coast of Milos, for the unique experience to taste food cooked in the volcanic sand

-**Winery in Pollonia**, to explore the local wine varieties in a special winery, located in a cave
